But...

how many of us
have attended

a live **sporting**
event

???

66 Million people
live in the UK.

Of these 66 Million
people

13.9 million live with
a disability.

More than 50%

of disabled people

have **never**
attended

a **sporting** or public
event!

This could be down
to...

Poor physical
access.

Segregation.

Shortage of
accessible tickets.

Accessible
information.

Poor transport links.

Fear.

Lack of accessible
toilet facilities.

Poor sight lines.

Anxiety.

An absence of a
support network.

Lack of
understanding.

It's time to **change**
all that...
